

SUMMIT ACADEMY OIC

Summit Academy OIC invites you to check out our Best Buy Teen Tech Center (BBTTC). The BBTTC is for middle and high school students ages 13-18 in North Minneapolis. The center gives teens access to cutting-edge technology. This will allow them to explore and express themselves artistically as well as give them a view to potential career pathways.

Our goal is to let teens be creators and inventors, not just consumers of technology. Our dedicated teen tech coordinator and other volunteers will serve as program mentors and facilitators.

The Best Buy Teen Tech Center offers teens the chance to use state-of-the art technology to explore many topics, including:

-  **Graphic Design**
-  **Film Production**
-  **Robotics**
-  **Music Production**
-  **3D Printing**

This drop-in program, developed in conjunction with The Clubhouse Network and funded in part by Best Buy, is open on the Summit campus from 12-7 p.m. Monday-Friday.

Interested in learning more? Drop by or contact Nich Thomas at 612-278-7356 or nthomas@saioic.org.
